JS Maximum Release FEATURES

- The best valued form release agent anywhere!
- Provides easy and clean form stripping.
- Produces bright and stain-free concrete surfaces.
- Minimizes bugholes and surface defects.
- Protects and maximizes life of formwork.
- Easy and pleasant to work with.
- Prevent concrete build-up from occurring.
- Reduce labor costs of form cleaning.
- Protect forms from damage and rapid deterioration.
- VOC Compliant.

JS Maximum Release PRODUCT GUARANTEE

JS Maximum Release, when applied in accordance with the written instructions will:

- Provide architectural concrete surfaces with oil stains eliminated.
- Provide maximum reuse of wood forms and maximum performance on the widest range of forming materials.
- Not inhibit the bonding characteristics of secondary toppings or coatings, caulks or sealants.

If for any reason you are dissatisfied with the performance of JS Maximum Release, return the unused portion of the container to your distributor and the full cost will be credited to your account. No questions asked.

JS Crystal Clear Cure & Seal FEATURES

- Ideal curing and sealing compound for decorative concrete to preserve natural look.
- Excellent water retention.
- Low viscosity for easy application.
- Reduces cracking, crazing, spalling and dusting.
- Insures optimum strength of cured concrete.
- Non-yellowing.
- One coat application. Reduces cleaning and maintenance costs.

- Quick drying.
- Prevents penetration of most oils and greases.
- High solids.

STANDARDS

- Meets AASHTO-M198, Type 1, Class A & B
- Meets ASTM C-309, Type 1, Class A & B
- Meets Coprs of Engineers CRD-C-300, Type 1
- ASTM C-1315, Type 1, Class A

JS Contoure FEATURES

- Horizontal, micro-thin applications.
- Fast setting - skim coat.
- Apply prior to floor coverings.
- Apply to concrete, wood, tile, carpet & other sub-flooring.
- Excellent resistance to abrasion, deicing chemicals, and freeze-thaw cycling.
- Apply from featheredge to 1" per lift.
- Mold and mildew resistance.
- 3000 psi-28 day.
- Install flooring in one hour.

JS Wall Crete

- Resurface and repair vertical concrete surfaces.
- Very fine blend of Portland Cement, aggregates and admixtures to leave an ultimate smooth finish.
- Light gray color to match existing concrete.
- Leaves a bondable surface for paints or coatings.
- Featheredge - 1/8" thickness.
- Excellent bond strength to substrate.
- Smooth and creamy workability.

JS1107

- High performing precision grout.
- CRD C-621; ASTM C-1107, Grade C.
- Non-metallic, non-shrink.
- High early strength.
- Placement versatility; dry pack; plastic, flowable and fluid consistencies - pumpable.
- Ideal for precise grouting applications; machinery baseplates, compressors, tanks and installation of anchors and dowels.

JS Special Patch

- A two-component, polymer modified, cementitious repair mortar.
- ASTM C-928 - Rapid Hardening Mortar Demonstrates high compressive strengths; ideal overlay or patch for heavy traffic areas.
- Easy-to-use system; no water or measuring needed.
- Accepts foot traffic in 1 hour, heavy traffic in 4-6 hours.

FORM RELEASE AGENTS

JS Form Release ⁹

JS Maximum Release ⁹

CURING COMPOUNDS

JS Cure Hard ⁹

Unicure White Cure Wax ^{5,10}

CURING & SEALING COMPOUNDS

JS Cure & Seal ^{1,3,4,6,9}

JS Cure 1315 ²

JS Crystal Clear Cure & Seal ^{1,2,4,6,9}

LIQUID SEALERS/HARDNERS

JS Honey Brown ⁹

JS Tuff & Seal ^{2,9}

JS Salt Guard Plus

JS Krete-Seal

Seal Hard

Kure Hard

Intraseal

FGS/Permashine

GROUTS

JS 621, Construction Grout ^{7,8,10}

JS 1107, High Flow Grout ^{7,8,10}

FLOOR LEVELER

JS Uniflow

Sonoflow

EPOXIES

Unibond MV ^{10,11}, Unibond LV ¹⁰

Unibond Gel Paste ^{10,11}, Unibond Rapid Gel Paste ¹⁰

Acrylic 7

CEMENTITIOUS REPAIR PRODUCTS

JS Special Patch

JS Wall Crete

JS All Patch, 5 min & 20 min

JS Contoure

JS All Patch 20 Lite

JS Vertical Patch

Gel Patch - Nonsag concrete repair mortar for vertical and overhead applications

LA 40 - One-component, pourable/pumpable, shrinkage-compensated, pre-extended micro concrete

Set 45 - Chemical-action repair mortar

EVAPORATION RETARDENTS

JS Aquafilm, concentrate and/or ready to use.

BONDING AGENTS

JS Strong Bond

Uniprimer

Acryl 60

SOLVENTS/STRIPPERS/CLEANERS

JS HD Stripper

JS Solvent 101

JS Orange Peel
