Modular Systems - Loop Coil™ Tie (transition tie)

One-sided forming made easy.

Loop-Coil™ Ties provide a convenient way to do one-sided forming. Secure lengths of 1/2” coil rod into drilled holes in existing wall with drop-in anchors, rock anchors, epoxy or other means. Then screw on Loop-Coil™ Ties to proper wall thickness & attach to modular panels.

- Form walls as thin as 4”
- No time consuming cranking out of Plylags after stripping
- Leaves minimal mark in surface of wall
